MEMORANDUM FOR: Director of Personnel

SUBJECT : Agency Participation in Federal Service Entrance Examination

1. For your information, during our dealings with the Civil Service Commission on the Regional Boards Program, we found that the Commission representative would be willing to include an Agency application card in the material on Federal agencies which is forwarded to individuals passing the Federal Service Entrance Examination. Mr. Don Holum of the Civil Service Commission also stated that he was quite sure that we could have access to the list of people who passed the Federal Service Entrance Examination, particularly in the liberal arts area. He mentioned, for example, the many liberal arts applicants they had from the Ivy League schools for which their requirements were very slim. He stated also that some times in a given region they might have a surplus of engineers for whom there were no takers. Their management intern types are not included in the offer.

2. We have worked closely with Chief, Recruitment Division, to exploit this opportunity and now propose to return to Mr. Holum with a card, a sample of which is attached. He will take the proposal up with his superiors at which time we should then be ready to come forward with a formal request to the Commission.
